Vermillion, South Dakota

Member, American Iris Society

**HOW TO ORDER:** We package and mail postpaid all orders amounting to \$5.00 or more. On orders of less amounts please add 50¢ for packing and postage. Enclose cash, check or money order with your order. If cash is sent, protect yourself by having your letter registered. Residents of S. D. please add 2% state Sales Tax. On all orders of \$5.00 to \$10.00 choose 30% extra as a bonus. For \$5.00 choose an additional \$1.50 and so on; for \$10.00 or more choose 50% extra as a bonus; for \$10.00 choose an additional \$5.00 and so on. On orders for less than \$5.00 please suggest a few extras that you would like. We guarantee every Iris to be true to name and will replace any that fails to live if notified by Oct. 1st, 1959, but cannot be responsible for winter-kill. Rhizomes we send you will be carefully selected blooming size, grown in fertile pest-free soil. Give them a fair chance and every one should bloom for you the first year. We will not substitute without your permission. We send you exactly what you order, or promptly return your money for any we cannot supply in TOP-NOTCH QUALITY. Order early and plant early. We begin digging and shipping about July 5 and continue until about Oct. 1st, but the earlier you plant the better the first year bloom will be. All orders are freshly dug. They should reach you almost as green and fresh as if dug from your own garden. Remember—we like to be generous; please list a few extra varieties so that we may select a gift which you would like. No spring delivery please.

### Enjoy Iris — The Ideal Perennial

The Iris is easy to plant—easy to grow—hardy—dependable—disease resistant, almost pest-free—excellent for cutting—unmatchable for bouquets and artistic color arrangements — bloom faithfully — thrives and lives a lifetime with a minimum of care—will do well in most any sunny, well drained spot—withstand drought and neglect—respond beautifully to proper care and culture—provide amazing colors in beautiful tints, tones, shades, and combinations at prices to fit any budget.

## JOIN THE AMERICAN IRIS SOCIETY

Membership to the society will bring you four very fine bulletins each year. You will find every bulletin simply packed with articles on Hybridizing, Iris Culture, Planting, Varietal Comments, Questions and Answers and accounts of various gardens and the activities of the different regions. Dues are \$5.00 per year. You may mail your checks to The American Iris Society, 2237 Tower Grove Blvd., St. Louis 10, Mo., or you may mail the dues to us and we will make your remittance. On all orders sent to us with dues included we will send an extra rhizome or two as a gesture of good will.

If you do not find what you want listed, write us, sending a self-addressed postcard for reply. We have over 1000 named varieties, old and new, and may be able to supply your wants.

## Greetings . . . 1960

Again we wish to say "Hello Iris Lovers" where ever you are, and wish you the finest iris ever in 1960. Time has a way of slipping by and soon the season will be at hand and the first Dwarfs will show their bright colors. Winter has been long, starting as it did in early November, but we fortunately have had a cover of snow on the iris fields most of the time. Moisture and the growing season were good the past year so we should have a wonderful bloom season. If you can come and enjoy the flowers with us we would be most happy. Visitors are always welcome and with the acres we have there should be lots of flowers.

We are fortunate and grateful for permission to introduce "Tropical Dusk" from the Whiting gardens, "Mar-Lee" of Wm. Failers, and also the amazing little "Thormila" of Grace Guenther's. We feel sure they will meet with your approval. Our own two new ones have met with much favorable comment and should please the most exacting.

In conclusion we wish to say "Thank You" to our many satisfied customers and friends. Your letters of praise have been most welcome. We hope to see many of you during bloom season.

Sincerely,  
THE SMITHS

## NEW INTRODUCTIONS — 1960

- GAY MOOD** (C. Smith '59) M. 36" (Dreamcastle x Chansonette) Sdlg. No. 56-18. A beautiful Cobalt Violet self with lots of class. Standards tightly domed and broad falls semi-flaring and wide. The crisp clean flowers are nicely displayed on well branched stocks, making it a good show specimen as well as a fine garden clump. One garden visitors like. Net ----- **\$15.00**
- MARINDALE** (C. Smith '59) M. 36" (Sass sdlg. No. 48-190 x Sass sdlg. No. 48-269) Sdlg. No. 56-46. This large, nicely ruffled and well balanced plicata has received much favorable comment in our gardens. The tightly domed standards are heavily colored with Pansy violet on a white ground. The broad falls are a glistening white with border of Pansy Violet put on by minute dots. Heavy beard is yellow tipped white. Strong stalks are well branched, foliage is clean and plants are vigorous. H. C. '57. A good stock permits this low introductory price ----- **\$10.00**
- TROPICAL DUSK** (Whiting '59) ML 36" (Black Forest x Vatican Purple) Sdlg. No. 5324. A rich deep purple self. Aconite Violet by the Wilson chart. The flowers are wide and full with closed standards and semi-flaring falls. Beard is dark and the broad hafts are smooth and clean. The glossy texture gives life and brilliance. The stalks are strong and well branched and the plants are hardy, vigorous and free blooming. Net ----- **\$15.00**
- MAR-LEE** (Wm. A. Failer '59) M. 34" (Ola Kala x Rocket) Sdlg. No. 17-54. This stunning and prolific yellow seems to combine all the good points of it's two famous parents. Standards are nicely domed and flaring falls are lightly ruffled, lending appeal and personality. It quickly won the admiration and approval of the garden judges on the Region 21 tour. The four way branching and strong stalks make this an outstanding show specimen as well as a striking garden iris. We feel honored that Mr. Failer has asked us to offer this new creation to you. H. C. '57. Net ----- **\$15.00**
- THORMILA** (Guenther '59) VIB 12" (Thor x pumila) SDB Interesting and beautiful indeed is this amazing little hybrid which was originated in one of the finest gardens in this area. Standards are violet-blue and falls the same but with a dark brownish spot around a brown beard, tipped blue-gray. Has proven extremely hardy and vigorous in this locality. Net ----- **\$10.00**

## NEW INTRODUCTIONS — 1959

- ADORN (C. Smith '58) Leading Lady x Lindora) Edlg. No. 56-75. There are many yellow and white combinations in the modern iris of this era, but we feel as the numerous judges do that here is an advance in contrast. All petals are nicely ruffled on this tantalizing flower with deep butter yellow standards and glistening chalk-white falls. The broad haft carries a yellow thumb print on either side of the deeper orange-yellow beard, nestled on white throat of the falls. A minute yellow border further enhances the beauty. Stalks are well branched and plants are vigorous. H.C. '58, H.M. '59. Net ----- \$25.00
- ANGIE (C. Smith '58) (Dreamcastle x Chansonette) Sdlg. No. 55-56. Appears to be an improved Dreamcastle with its large beautifully formed flower and broad, nicely ruffled petals. A complete self of Imperial Purple (33/I by Wilson), except for the beard which is medium yellow with a white tip. Blooms profusely on a well branched stock, making an excellent show specimen. The clean, velvety texture and vigorous foliage command attention in any planting. H.C. '56. H.M. '59 ----- \$10.00
- TWO JEWELS (Whiting-Smith '58) (Extravaganza x Heathcrest) Sdlg. No. 5422. We fell in love with this very late flowering white and red amoena as it bloomed in the Whiting gardens last spring. Standards are nicely domed near white and falls are semi-flaring and wide for this class. Color contrast is very pleasing as the falls are a deep shade of Ruby red (827 by Wilson), with a nice border of cream. We feel as many judges do that this is indeed an advance in this difficult color class. The haft carries some lighter penciling, but in this case seems to add sparkle. H. C. '58. H.M. '59 ----- \$15.00

## GENERAL LIST OF NEWER TALL BEARDED IRIS

- |   |  |
|---|--|
| <p>ACCENT—(Buss '53) large variegata with clear yellow stds and red-purple fls. ----- 1.50</p> <p>AHOY—(Tomp. '57) ML 36" Close to carmen red. ## MEDIAN BEARDED IRIS

Median Iris are those that fill in the height range and bloom season between the early dwarf iris and the Tall Bearded. It includes those that grow from 10" to 28" high. In this group are some of the most exciting iris to be found — new colors and color patterns that are the result in most cases of crosses between the dwarfs and species with the tall bearded. They come in a wide range of height, color, and at last iris for arrangements.

LITTLE LAKE—True blue with flaring fls.	1.00		
MARINE WAVE—Vigorous blue	.50		
MISS MOFFET—Greenish yellow onco	.50		

## DWARF IRIS

Charming little harbingers of spring, heralding the Iris Season. They start to bloom about April 15th here at Vermillion and continue well into the Tall Bearded season. Coming as they do with the early tulips, brightening up the rockery and perennial border, or for splashy little edgings, they are indeed a welcome addition to any well planned garden. Ranging in height from 3 to 10 inches, they require very little care, asking only for a well drained spot where they will be uncrowded and receive the warm sunshine. We have enlarged our plantings considerably to meet the increasing popularity and growing demand for these wonderful little iris. Please be assured that anything you choose from this listing will be the best available. You must be satisfied.

ABLAZE—Brilliant new variegata with a fiery color and orange beard. One of the very best new ones -----	1.50	BRICKY—A new brick-red bitone. Bright and dainty -----	2.00
ALINDA—Clear rich red-purple with a pale blue beard -----	.50	BRIDE—White with some veins on fls, cream beard. One of the better dwarfs. -----	.50
